

Uncover your compliance risks today and improve your program

**Alarmingly, many Medicare plans are caught by surprise at what is expected during an audit by the Centers for Medicare and Medicaid Services (CMS). In fact, plans are often unaware of their own compliance risk for a number of key operational and compliance areas.**

**Medicare Strategic Review evaluates:**

- Compliance Program Effectiveness (CPE)
- Coverage Determinations, Appeals & Grievances (CDAG)
- Formulary and Benefit Analysis (FA)
- Medication Therapy Management (MTM)
- Organizational Determination, Appeals & Grievances (ODAG)
- Overutilization Monitoring System (OMS)
- Pharmacy Adjudication
- Prescription Drug Event (PDE)
- Special Needs Plan Model of Care (SNP MOC)

**Comprehensive expertise**

**Introducing Medicare Strategic Review**

Visante experts have designed a helpful, new approach to evaluate a plan's Medicare compliance. Our Medicare Strategic Review rapidly draws attention to vulnerabilities and gaps and prioritizes areas for improvement. We use a scorecard approach to quickly, efficiently and cost-effectively give plans a high-level overview of their compliance status and practical ways to improve programs.

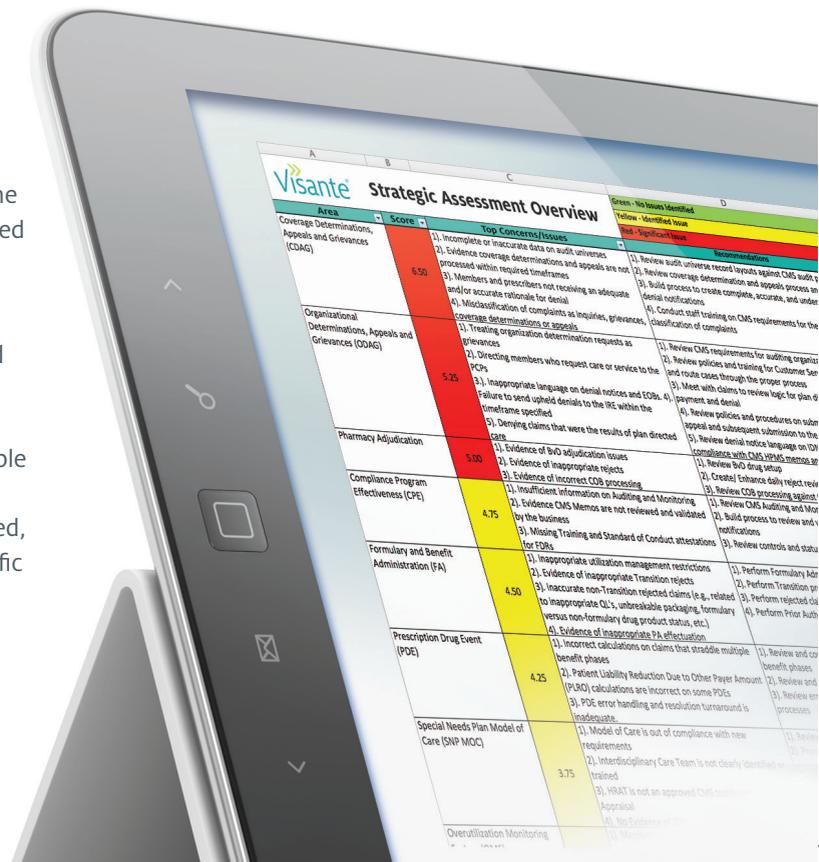

**Medicare Strategic Review Scorecard**

Visante's Strategic Review Scorecard provides a high-level review of your Medicare operational areas and the Compliance Program Effectiveness. The scorecard measures key areas identified by our experts to be critical to CMS compliance in an audit situation.

Each compliance area is reviewed and scored by a Visante Medicare expert whose specialty is in that area, giving you the most timely and knowledgeable feedback available. In just 2 weeks' time, your detailed results are analyzed, prioritized and accompanied by specific recommended actions that your organization can undertake to mitigate deficiencies.

**Access to Industry-leading Compliance Experts**

Our Medicare compliance and operational experts are the best in the business. Visante consultants average more than 20 years of experience in their specific knowledge areas. We have expertise in health plans, pharmacy benefit management (PBM), government agencies (including CMS), and pharmacies. We bring this knowledge and experience to work for your organization.

*“Compliance is increasingly difficult for plans of all sizes because regulations continue to evolve and expand. Visante’s scorecard is an excellent tool to help plans quickly uncover deficiencies in order to figure out which areas to tackle first and how to plan for the coming months.”*

— Lisa Howard, SVP Medicare Compliance and Operations, Visante

Visante’s knowledge and experience means a quicker, more comprehensive analysis that you can use **TODAY** to improve your compliance.

## Visante is your compliance partner

Completion of your scorecard is a first step towards improved compliance. Visante is prepared to work with you on all areas of your Medicare Strategic Review, tackling your current issues and helping you meet your compliance objectives.

### Scorecard deliverables:

- High level summary of key performance areas
- Expert evaluations
- Audit readiness score for each area
- Recommended actions
- Additional findings for each key area
- Prioritization recommendations
- Summary of organizational audit readiness

### Actionable results

## Our experience

Our Medicare consultants include pharmacists, nurses, and operational and information technology leaders with experience at Prescription Benefit Management (PBM) firms, managed care organizations and CMS. We continually stay on top of complex, changing regulations and help our clients

## Our Medicare Compliance Service Portfolio

In addition to our **Medicare Strategic Review**, Visante offers a wide range of services to support your compliance goals:

- > **Mock audits** performed according to CMS protocols
- > **Operational and CPE detailed assessments** to review compliance beyond a CMS audit
- > **Staff augmentation**
- > **Compliance development** to create or improve P&Ps and build compliance business processes
- > **Ad Hoc services** to support specific projects and provide assistance, as needed
