

Visante Consulting Services:

> **Delivering the Highest Level of 340B Expertise**

A vision for *moving healthcare forward*

Protect your 340B Program and minimize compliance risk

Compliance with 340B program regulations is a challenge for all types of covered entities. Complex regulations and an evolving marketplace make compliance increasingly difficult. Visante's 340B program experts bring years of experience and audit expertise to help all types of covered entities protect their 340B programs and make the most of their opportunities.

Our experience means no more guess work

Visante's experts bring experience to your organization that will give you confidence in your compliance. We have conducted audits of more than 1,000 contract pharmacies for virtually every type of covered entity, including review of more than 500,000 individual transactions. We are experienced with every type of split-billing system. Our team stays on top of evolving regulations, bringing you the most up-to-date expertise and information.

All type of programs, all types of challenges

Visante's 340B team consultants are all graduates of the APEXUS 340B University and highly experienced in 340B Program compliance. We've managed multiple programs successfully, and understand the vast array of challenges that our clients face. We can help you make the most of your unique program.

Be prepared. Be confident.

Visante's 340B team members are current with all of HRSA's Office of Pharmacy Affairs (OPA) regulations and Government Accountability Office (GAO) recommendations, and we regularly share these updates with our clients. Our experts prepare our clients for upcoming audits by reviewing their compliance with these regulations and guidance statements, including a comprehensive review of all required documentation.

Independent audits are an HRSA expectation

Visante's expertise helps you fulfill HRSA/OPA expectations for all covered entities to conduct quarterly internal audits and annual external independent audits of ALL contract pharmacies.

Compliance confidence.

“Risks are amplified with continual changes to 340B regulations, and annual recertification brings opportunity for further scrutiny and even personal risk for hospital administrators.” — Tammy Zukowski, Vice President, Hospital & Health Systems Services, Visante

Ensure integrity while improving internal audit options to achieve and maintain compliance.

Visante helps maximize program performance while improving compliance. We can help you prepare for a HRSA 340B Program audit through our stem to stern assessment that reduces financial risk and identifies compliance issues that could jeopardize your program.
